## **You Deserve to Hire a Professional for Your Special Day.**

Your memories can be recalled as often as you like ... when they have been perfectly captured on tape through the artistry of Leslie Harris-Senac.

Leslie Harris Senac, owner of Visions Unlimited, brings over 20 years of professional video production experience to the work she loves. You will appreciate her sensitivity, from the first meeting, to discuss your expectations and desires, until the final package, in itself a work of art.

In addition to producing a sophisticated living video of your wedding day, Leslie can provide nostalgic, heartwarming visual entertainment for your guests at your reception, such as a Love Story Tribute Video or a Photo Montage that chronicles the bride and groom's family histories. Your wedding memories deserve to be preserved forever ... perfectly.
